SUMMARY

As a dedicated and passionate Software Engineer, I am eager to make my mark in the industry and take my career to new heights. With a deep-seated love for technology and programming, I have honed my skills in front-end and back-end technologies and I am confident that I possess the expertise and knowledge necessary to land my first job in the field. With a strong work ethic, a commitment to excellence, and a passion for learning, I am excited to take on new challenges and grow both personally and professionally as a Software Engineer.

EXPERIENCE

Retail Relationship Banker

BMO Bank N.A.

July 2023 - Present, Indianapolis, IN

- Built relationships and rapport with clients and prospects, utilizing Salesforce to track and ensure impeccable customer experience.
- Engaged in holistic customer-centric needs-based conversations to help customers achieve their financial needs and goals.
- Addressed customers' concerns with ease by reducing complexity and guiding customers to safe and convenient methods of banking.

PROJECTS

Portfolio Website

wardalhadid.com

- A Website that showcases my projects with links to my GitHub, LinkedIn, Resume, and Contact Information.
- The Web App was built using Next JS and Tailwind CSS.

SupaNotes

<https://supa-notes-one.vercel.app/>

- Notes web app that allows users to log in, create, edit, and delete notes.
- Web App was built with Next.js, daisyUI, PlanetScale, Prisma, and tRPC.

Expenses Tracker

<https://github.com/wardalhadid/Expensesify>

- A Web app that allows multiple users to Add, Edit, Update, and view their expenses.
- The web app was built using the MERN stack with React-Router and Redux state management, Tailwind CSS, and Flowbite components.

Social Media REST Blog API

<https://github.com/wardalhadid/wardalhadid-pep-project>

- A RESTful API that allows users to register, log in, and, create, view, update, and delete messages.
- The API was built using Java, JDBC, and Javalin.
