SUMMARY

I'm a Java Developer with over 2 years of hands-on experience working at Infosys on the Verizon account, where I design, develop, and optimize enterprise-level applications. My work focuses on building micro-services using Spring Boot, Apache Camel, and jBPM for process orchestration. I have strong expertise in Cassandra DB and DB2, including designing and maintaining data synchronization between the two, as well as implementing Spring Batch solutions for large-scale data processing. On a day-to-day basis, I collaborate closely with stakeholders to gather requirements, design technical solutions, and implement code changes that enhance system functionality and reliability. I also perform root cause analysis and deliver effective bug fixes or design improvements to ensure system stability and performance. I'm passionate about writing clean, efficient code, solving complex problems, and continuously improving system design.

EXPERIENCE

Java Associate Developer

Infosys Limited

June 2024 - Present, Dallas, TX

- Designing and developing enterprise-level micro-services using Spring Boot, Apache Camel, and jBPM for process orchestration.
- Database Expertise: Skilled in Cassandra DB and DB2, including data synchronization, schema design, and implementing Spring Batch for large-scale data processing.
- Collaborative Problem Solver: Experienced in requirements gathering, technical design, root cause analysis, and delivering reliable, performance-driven solutions through clean and efficient code.

Tools / Technologies

Java, Spring Boot, Cassandra, Apache Camel, Spring Batch

Java Full-stack Developer

Revature Inc.

April 2024 - June 2024, Indianapolis, IN

- Build Spring boot applications to handle logic for a e-commerce website.
- Build frontend UI components using React.
- Design CI/CD pipeline using Jenkins to deploy the services to AWS using EC2, S3, and RDS services.

Tools / Technologies

Java, SQL, JDBC, Maven, GIT, Spring boot, JUnit, Mockito, Javascript, Typescript, Reactjs.

Retail Relationship Banker

BMO Bank N.A.

July 2023 - April 2024, Indianapolis, IN

- Built relationships and rapport with clients and prospects, utilizing Salesforce to track and ensure impeccable customer experience.
- Engaged in holistic customer-centric needs-based conversations to help customers achieve their financial needs and goals.
- Addressed customers' concerns with ease by reducing complexity and guiding customers to safe and convenient methods of banking.

Coding Expert

Outlier

January 2024 - April 2024, Indianapolis, IN

- Rank a series of code responses that were produced by an AI model
- Write pieces of code with reasoning to show an AI model how to respond to prompt.
- Edit code written by an AI model to fix bugs and improve performance.

Java Intern

Revature Inc.

June 2023 - August 2023, Indianapolis, IN

- Compose Service Layer Logic.
- Implement input validation to pass Unit tests through Test Driven Development.
- Write Database Communication Layer using JDBC.
- Leverage Java APIS to write algorithms which solve various challenges and problem sets.

Tools / Technologies

Java, SQL, JDBC, Maven, GIT, Javalin, JUnit, Mockito, Log-back.

District Manager

VA Fastlink - Metro by T-Mobile Authorized Dealer

May 2018 - November 2022, Richmond, VA

- Effectively work with the management team; General manager, Sr Account service representatives, and store managers, to ensure accurate transfer of information and the right implementation of orders.
- Order, Receive, Distribute, Transfer and Check the inventory.
- Setting a weekly schedule for the employee.
- Observing sales representative's customer service and working with them to enhance customer service. Keep track of promotions, training and business rules to give answers about any vague information.

EDUCATION

Bachelor of Science in Mechanical Engineering

University Of Jordan • Amman, Jordan • 2018

CERTIFICATIONS

Appian Associate Developer

Appian • 2024

Google Data Analytics Certificate

Coursera • 2023

FreeCodeCamp - Back End Development and APIs

FreeCodeCamp • 2023

FreeCodeCamp - Front End Development Libraries

FreeCodeCamp • 2022

FreeCodeCamp - Responsive Web Design

FreeCodeCamp • 2021

FreeCodeCamp - JavaScript Algorithms and Data Structures

FreeCodeCamp • 2021

COURSEWORK

Full Stack Software Engineering

Revature • 2023 • Software Development

• Java, Javalin, SQL, JDBC, SDLC, Agile.

SKILLS

Java

React

HTML

CSS

JavaScript

Typescript

NextJS

SQL

MongoDB

trPC

NodeJS

Javalin

Springboot
